What does leadership mean to you?

Who do you lead?

How well am I leading myself?

What are all the ways I can grow my leadership capacity?

The first thing to understand is that a goal or outcome has three aspects to be considered

The BE - who you need to authentically BE
(behave and believe)

The DO - what needs to be done to make it happen

The HAVE - what is to be achieved

Personal Lead-HER-ship Plan

What advice would I give someone else that I'd be willing to **TAKE ACTION** on myself?

What three actions are you willing to take action on over the next three months to increase your leadership capacity ?
